

Somerset Learning Disability Partnership Board

Making your voice heard - Grants to support people with learning disabilities in Somerset

Somerset County Council and Public Health want people with learning disabilities in Somerset to have their say and lead the life they want.

People can help do this by meeting together, talking about their experiences and sharing their views; these are called Peer Support Groups.

- We have grant funding for people or groups to set up Peer Support Groups across Somerset
- We will provide funding for 3 years to give groups time to recruit members
- We will provide a safe community space where people can meet
- There will be a Facebook group to help people to communicate, keep in touch, and share lots of news
- We want you to attend the Learning Disability Partnership Board and share the views of your groups

People with learning disabilities in Somerset will have a stronger voice and be more informed about things such as staying healthy, being safe and living well

For more information about applying for a grant please contact:
